MPR Services and Jet Oil Solutions Form Environmentally Clean Systems™

(Houston, February 19, 2009)— MPR Services, Dickinson, Texas and JET Oil Solutions (JOS) of Salt Lake City, Utah have formed Environmentally Clean Systems (ECS), a joint venture, serving the oil and gas industries providing water treatment for produced, frac, flowback and black water. ECS will be addressing these waste water issues with their electro-coagulation (EC) processes. The EC process allows for the reduction and elimination of reagents and equipment associated with chemical systems resulting in lower reclamation costs and greater flexibility in disposal. ECS will be headquartered at MPR's Dickinson, Texas location and may be contacted at 281-337-7424 or at info-ecs@tkinet.com.

JET Oil Solutions, Salt Lake City, Utah, founded in 2007, specializes in the electrocoagulation technology to clean water and de-emulsify slop oils in oil and gas applications. JET's improved processes have developed water treatments with more efficient and economical results than a majority of the current treatment methods.

MPR Services, Inc., a subsidiary of Tessengerlo KERLEY, Inc., (TKI), provides both mobile and permanently installed technologically advanced equipment, processes and analytical services for cleaning and recovery of amine and glycol solutions used in oil refining, gas processing, ammonia production and steel manufacturing.

Tessengerlo Kerley, Inc. headquartered in Phoenix, Arizona, produces and markets specialty chemical solutions, including fertilizers, crop protection chemicals and process chemicals and services to diverse markets in the United States, Mexico, Central and South America and selected European countries and the United Kingdom. TKI operates 10 manufacturing plants in North America, in addition to an extensive terminal network. (www.tkinet.com) TKI is a subsidiary of the Tessengerlo Group, Brussels, Belgium.

Tessengerlo Group is an international chemicals group with more than 100 branches in 20 countries. The group is a world and European leader in most of its product areas. Tessengerlo Chemie NV is listed on Eurolist by Euronext Brussels and is part of Next 150 and BEL Mid. (www.tessengerlogroup.com)
