

TESSENDERLO GROUP: TESSENDERLO KERLEY ACQUIRES EASTMAN'S METAM LABELS IN THE U.S AND CANADA

Tessenderlo Kerley Inc. is pleased to announce the acquisition of Eastman's United States and Canadian Crop Protection Metam Sodium (CLR™ 42%) and Metam Potassium (KLR™ 54%) product labels, marking a purposeful expansion of our soil fumigation portfolio and reinforcing our commitment to delivering innovative, grower-focused solutions.

U.S and Canadian growers will benefit from Tessenderlo Kerley's robust distribution network and dedicated field support teams, ensuring timely access to Metam products and expert guidance on application best practices. Tessenderlo Kerley will enhance its stewardship and training and launch updated overview programs focused on safe handling, regulatory compliance, and integrated pest management. "Our goal is to empower growers with the tools and knowledge they need to use these products effectively and responsibly," said Jon Akins, Senior Vice President, Tessenderlo Kerley Crop Protection.

We are working closely with regulatory agencies to ensure a smooth transition of product registrations and label continuity. Our priority is to maintain the high standards growers expect while enhancing service and support.

The acquisition is not expected to have a material impact on the group's overall financial position or performance.

About Tessenderlo Group

Tessenderlo Group is an industrial group that focuses on agriculture, valorizing bio-residuals, machinery, mechanical engineering, electronics, energy, and providing industrial solutions with a focus on water.
